

**CITY OF PRESCOTT
PUBLIC WORKS DEPARTMENT**

PROJECT UPDATE

Project Name:

Copper Basin Road Area New Water Reservoir (Zone 19)

Date:

September 16, 2009

Claycomb/Rockwell Associates (CRA) was awarded the engineering and design service contract for siting and property acquisition for the new Zone 19 water reservoir.

CRA is currently working with the City of Prescott in determining feasible locations for the new water storage reservoir. Both CRA and the City of Prescott understand the sensitivity of the impact to the local neighborhoods. A neighborhood public meeting will be scheduled in the future to discuss options and impacts to the neighborhood. Neighborhood input is appreciated in helping CRA and the City to formulate a proactive design. This website will be updated as the project progresses with meeting dates and other pertinent information. For additional information and an opportunity to comment on the project, please visit CRA's website at www.clayrock.com and click on the Copper Basin Reservoir Project information link.
